

TOH Seng-Huat, Gavin
LEE Siew Wei
(Editors)

Proceedings of
The HKIE Geotechnical Division 41st Annual
Seminar: Adapt to Challenges, Create to Thrive
GDAS2021 (18th May 2021)

Jointly Organized by
Geotechnical Division, The Hong Kong Institution of Engineers
&
The Hong Kong Geotechnical Society

Supported by
The Institution of Engineers, Malaysia
Chinese Institute of Engineers
Civil & Structural Divisions, The Hong Kong Institution of Engineers &

Published by
AIJR Publisher, Dhaurahra, Balrampur, India 271604

Table of Contents

Disclaimer	i
About the Seminar.....	v
Organizing Committee.....	vi
Acknowledgements	vii
Engineering Geological Ground Models: Industry Applications for Geotechnical Investigation Planning, Data Acquisition & Appraisal <i>A.N. Al-Nuaimi, J. Cunningham, H.L.K. Fu, G. Li, K.A. Styles, C. Garcia, C.K. Loh, C.M Warnest</i>	1
A Study of Heaving Material Resulted from Deep Cement Mixing Construction <i>Jian Chen, L. Tony Chen, Yuen Ping Chan</i>	16
Insights on Debris Flow Growth: Collisions and Contractile Skins <i>C.E. Choi</i>	26
An Innovative Design of Retaining Wall in Lung Shan Tunnel Construction <i>Kelvin Y.M. Choi, Victor Li, Alan Y.S. Tam</i>	39
Modeling Mechanical Reinforcement of Vegetation to Wall Stability: A Case Study of a Short Retaining Wall in Hong Kong <i>Ricky Y.S. Choi & Arthur K.O. So</i>	50
Using Radar Satellite Data for Ground Deformation Monitoring: ATLAS In SAR <i>Devanthery N., Garcia-Boadas E., Giralto A., Le-Goff D., Lam B.</i>	62
Digital Twin for Geotechnical Engineering Applications <i>I.S. Haryono, A.L. Saw, S.W. Lee, Lewis C.K. Wong</i>	73
Using UAV-based Technology to Enhance Landslide Investigation: A Case Study in Fei Ngo Shan, Kowloon <i>W. Hou, J.R. Hart, R. Tsui, A. Ng & C. Cheung</i>	85
Application of BIM in Deep Excavation Projects <i>H.C. Hung, Y.Y. Liu, J.F. Chang, C.R. Chou</i>	100
Use of Slurry and CSM Wall for Excavation and Lateral Support Works <i>Kenny Hung, Leo Lee, Victor Li</i>	113
Geotechnical Design and Performance of a Jacked-in-Place Subway in the First Application of the Rectangular Tunnel Boring Machine Technology in Hong Kong <i>H.S. Kan, Wilfred So, K.M. Chiang, Willie Ang, Davis Lee</i>	125
Study of Creep Settlement of Driven H-piles in Loading Tests <i>Joley Lam, Kenneth Pak, Victor Li</i>	137
Application of landscape Architecture to the Rehabilitation of Quarry in Hong Kong and an Overseas Case Study <i>W.H. Lee, L.M.K. Fung, C.K. Lai</i>	148

The Sustainability of Concrete for Use under Different Loading and Environmental Conditions <i>W.H. Lee, M.T. Wong, L.M.K. Fung, C.K. Lai</i>	153
A Note on Design of Rock-socketed Embedded Wall <i>Victor Li</i>	157
Geotechnical Design from the Inside Out- Development of Automation Design Platform and BIM of MRT Geotechnical Engineering <i>Chih-Min Liou, Chen-Wei Hung, Cheng-Hsien Chang, Chien-Ming Lai</i>	166
Design of Protection Measures for Deep Excavation of A New Underground Station Closely Adjacent to Viaduct of MRT System in Operation <i>Liu, Cheng, Lee, Yi-Ting, Sung, Shang-Ping, Tsai, Yuan-Yao, Lin, Heng-Tzu</i>	180
A BIM-based Ground Information Management (GIM) Framework to Manage Ground Risk for Construction Projects <i>D.Y.Y. Mak, S.W. Millis, P. Li, L.C.M. Tang</i>	190
Design and Construction of Ground Improvement for TMCLKL Southern Ventilation Building <i>A. Martucci & A. Pickles</i>	203
Open Cut Excavation Observational Method Associated with 3D Analysis for HKBCF PCB <i>A. Martucci & A. Pickles</i>	215
Development of 3D Subsurface Models for Landslide Investigation Using Spatial Interpolation Technique <i>S.M. Ng, M.A.M Ismail</i>	229
Reinforced Earth Wall - A Sustainable Alternative to a Piled Vehicular Abutment Ramp <i>Dimitri PLANTIER, Norman M. H. LEE, Gavin S. H. TOH, Sai Shun TO, Kim C. H. KWAN</i>	237
Diaphragm Wall Trench Stability in Recently Reclaimed Land: A Case Study Review <i>T.M.S. Sacadura, L. Lee, O. Hays</i>	248
On the Application of Mechanical Reinforcement of Tree Roots to Slope Stabilization <i>Arthur K O So & Ricky Y S Choi</i>	264
A Comparison of Empirical and Numerical Approaches for Estimating Rock Support Pressure on Permanent Tunnel Lining <i>Franklin K.L. To</i>	282
Design Optimization of Permanent Systematic Rock Bolts and Shotcrete Lining for Large-Span Caverns in Hard Rock <i>Franklin. K.L. To, Bridges, G.D.C., Andrew K.W. Seto</i>	293
Intersection-Based Potential Plane Failure Detection on 3D Meshes for Rock Slopes <i>R. Tsui, C. Cheung, J. Hart, W. Hou, A. Ng</i>	305
Application of “Big Data” to Engineering Properties of Hong Kong Soils <i>Dr WONG Hong-yau</i>	320
Effectiveness of Cross-Walls in Reducing Wall Deflections in Deep Excavations <i>L. W. Wong, R. N. Hwang</i>	336
