## About the Conference

Since 1987, the European Association for Creativity & Innovation (EACI) (<http://www.eaci.net>) co-organizes the bi-annual European Conference on Creativity & Innovation (ECCI), together with a local creativity and innovation association in Europe, with the intention of providing a platform for practitioners and academics in the field of creativity and innovation.

In 2022, EACI organized ECCI XIV: Connect2Create, in collaboration with Delft University of Technology. During the conference practitioners and academics were connected to deliver workshops together. Teaming up and engaging in deeper relationships fostered different backgrounds and points of view. Because after all: true connection can be facilitated by creating something together!

The event took place at the Delft University of Technology, at the Faculty of Industrial Design Engineering on 9 & 10 November, 2022.

The submitted papers and proposals for presentations were double blindly peer reviewed. In the following pages reflect the rich contributions and diversity that could be found in ECCI XIV. The papers are organized by type (practical or academic paper).
